

Draw the coins and notes that you could use to make these amounts.

39p

46p

67p

89p

98p

£4 and 24p

£5 and 56p

£7 and 43p

£12 and 73p

Now can you challenge yourself a little and answer these questions?

Asha and Mo both say they have 96p.
Asha has 5 coins and Mo has 6 coins.

Could they be correct?

Which coins could they have?

Tick the odd one out

Tick (✓) the odd one out.

£5 and 40p = £5, 20p, 20p

£5 and 40p = £5, 20p, 10p

£5 and 40p = £5, 20p, 10p, 10p

Use the money to fill the purse.
You can only use each coin or note once.
Cross out the coins and notes you have used.
