

I cut up cakes into slices of $\frac{3}{7}$. How many people can I serve with 4 cakes?

\times		$\frac{4}{7}$	$\frac{2}{3}$	
		$\frac{1}{2}$		
$\frac{5}{6}$				
		$\frac{8}{63}$		
	$\frac{3}{5}$		$\frac{8}{15}$	$\frac{3}{10}$

Complete this like the normal multiplication grid (hint: you will need to use the inverse).
